Senior Front-End Developer
Open Objects
Location: Cambridge

About the role

Open Objects are leaders in the provision of digital products and services to the UK social care and health sector, providing solutions to Local Government, Education, Health and Social Care services and the NHS.

We are looking for an experienced Senior Front-End Developer to join our established team of developers creating and deploying websites for our customers. The successful candidate will be joining a thriving team and will (as a key team member) be driving the next phase of growth for Open Objects. Idox and Open Objects will provide further training and mentoring for the right person, as an investment in professional development.

This is an opportunity to work alongside like-minded individuals as part of a focused team that are exploring and utilising cutting-edge technologies to deliver our next generation of web-based applications.

You would be responsible for;

- The creation and on-going development of customer websites
- Producing high-quality, well tested and maintainable code
- Ensuring best practices are followed by yourself and other members of the team
- Working alongside project managers to deliver outstanding web solutions

Personal Specification

What would make someone successful in this role;
- You must have commercial experience of building websites
- You must be accomplished in all aspects of HTML 5 and CSS
- You have experience of JavaScript libraries and frameworks (e.g. JQuery, Bootstrap)
- You have practical experience with LESS/Sass
- You have a good understanding of responsive design principles

Additional desirable qualities;
- You have knowledge of multi-platform/browser practices and issues
- You have used version control, e.g. Git, SVN
- You enjoy working as part of a small, focused team
- You can adapt to technical challenges as they arise
- You are thorough and accurate in your work
- You have an awareness of web accessibility testing

We would also like to see a portfolio of projects that you have worked on recently.

About idox plc

Idox is the leading applications provider to UK local government for core functions relating to land, people and property, such as its market leading planning systems and election management software. Over 90% of UK local authorities are now customers. Idox provides public sector organisations with tools to manage information and knowledge, documents, content, business processes and workflow as well as connecting directly with the citizen via the web, and providing elections management solutions. It also supplies in the UK and internationally, decision support content such as grants and planning policy information and corporates compliance services. Idox delivers engineering document control, project collaboration and facility management applications to many leading companies in industries such as oil & gas, architecture and construction, mining, utilities, pharmaceuticals and transportation in North America and around the world.

The Group employs c.900 staff located in the UK, the USA, Canada, Europe, India and Australia.

Idox has many offices across the Country and therefore travel will be required.

The Benefits

This post commands a competitive salary depending upon experience, along with an excellent benefits package.

How to apply

Applicants should submit a CV, and a short cover letter *(maximum 500 words - including salary expectation, and current remuneration)* explaining why they feel they would be suited to this role to Join.Us@idoxgroup.com.

Please note successful applicants will need to satisfy the BPSS guidelines (Baseline Personnel Security Standards) which consist of the receipt of satisfactory references covering the last 3 years of employment; an identity check; verification of eligibility to work in the UK; and a Basic Disclosure Check. This is in order to help us make safer recruitment decisions and prevent unsuitable people from working with access to personal and sensitive data.

Privacy Notice

As part of the recruitment process we will collect data about you in a variety of ways including the information you would normally include in a CV or a job application cover letter, or notes made by our recruiting officers during a recruitment interview.

Please read the Idox Recruitment Data Privacy Policy here http://www.idoxgroup.com/privacy.html
